

SIMONT

Digital Finance

BRAUN

Simont Braun's Digital Finance Team is the first of its kind on the Belgian market. The team gathers renowned tech and financial law experts, and combines experience in financial law, ICT and data protection. It is deeply integrated into the Belgian Financial Services & FinTech ecosystem and very well connected with regulators, the academic world, and service providers on the ground both in Belgium and abroad.

You and us

Landmark projects

Handling the set up and launch of a major **challenger bank** in Belgium digitally offering the full scale of financial services.

Advising **payment services & e-money providers** on regulatory matters, such as licence applications, implementation of new regulations, product marketing and AML/KYC client onboarding procedures.

Setting up **crowdfunding** platforms as well as the first alternative consumer lending platform in Belgium.

Assisting **InsurTech** start-ups with the roll-out of different disruptive services.

Supporting foreign **digital banks** in launching new credit and payment products in Belgium.

Assisting international leading (digital) **money remitters** and local **e-invoicing** platforms.

Exploring the boundaries of cutting-edge business models in light of **IP/ICT** regulations and **cybersecurity**.

Assisting **RegTech** players on their contractual relationship with financial institutions.

Advising the world's largest **social network** on the regulatory status of the **currencies** used in their online games.

Regularly assisting local, UK and US-based **robo-advisors**.

Structuring the first **micro-saving platform** in Belgium.
