

Energy

< All sectors

PRINT THIS PAGE

Simont Braun has extensive experience in advising various players in the energy sector, ranging from energy project developers to energy producers and suppliers.

Our clients are active in the fields of electricity, gas, oil, and renewable energies including on-shore and off-shore wind farms, biomass powerplants and photovoltaic energy.

Energy sector knowledge

Our knowledge of the energy sector's regulations, combined with the other highly specialised teams within the firm and our network of technical and financial advisors, allows us to provide tailored and comprehensive answers to the most complex issues and challenges.

We assist our clients in the energy sector in matters as diverse as corporate transactions, public law, **litigation**, **tax law**, environmental law, **real estate**, contract law and **corporate governance**.

Renewable energy projects

Our firm has notably gathered in-depth experience in renewable energy projects, with a particular focus on wind and solar farms, biomass and circular economy.
